<p> Is 💹 Reactoonz the right slot for you?</p>
<p> I must have</p>
<p> played thousands of online slots in the last few years and when ԁ
85; a Cluster Pays slot</p>
<p> comes along, it s always a fun break from traditional reels and paylin
es.</p>
<p> Instead of</p>
<p> reels, Reactoonz is 💹 played on a 7x7 grid. You make winning
combos when 5 or more of the</p>
<p> same symbol are connected in 💹 a cluster. As well as the Clus
ter Pays format, it also has</p>
<p> cascading symbol drops which create the kind of 💹 chain react
ions suggested by the slot s</p>
<p> name. Winning symbols are removed from the grid so that new symbols ca
n drop 💹 down,</p>
<p> generating more chances to win from the same go.</p>
<p> Every time you spin a win, you charge</p>
<p> up the Quantum 💹 Leap meters below the reels. If you can full
