I think the title should be why is 25nl so EASY to beat...

At any rate, these are the

 learning levels. 💪 If you can't beat 25nl and 50nl, then

 it is because you are not likely

 even playing sound ABC poker. 💪 From my experience the sharks

 only start to become much

 more prevalent at about 200nl or maybe 100nl. You haven't 💪

 ; told much regarding your

 sample size of course, your stats, and so forth, nor how much you are

 actually beating

 💪 the game for over that level. As such, there might be any n

 umber of reasons why you are

 performing poorly 💪 at this level, if indeed you are performi

 ng poorly at all.

 If it

 helps any, I am a regular at 10nl 💪 through 50nl on a few sit

 es, and I have had (not too

) Tj T* BT /F1 12 Tf 50 440 Td (

 often) ridiculous

 a regular winner on two

 separate sites, I have NEVER been able to get my mojo going 💪

 on Full Tilt. I have been

 up and down hundreds on there for no reason I can readily fathom with

 💪 my meager

 bankroll there, since I have won thousands on my other sites. All I ca

 n say is it

 happens 💪 to the best of us and much more often the further f

 rom best you are.
