"That's poker" is a colloquial expression often used to convey acceptance of a situation that is out of one's control. It's derived from the game of poker, where luck and chance play a significant role in the outcome. Essentially, it means "that's just how things are" or "That's life." What does that mean? A hand wins the hand and receives the pot. At various stages players bet against each other on the value of their hands. A player can't change their hand at any stage.
