🎮 I Love Traffic🎮

You have never before played Car Games such as I Love Traffic, the

newest addition of our team into the Friv 2024 Games category,

a category which was

already really cool, but which is getting even better now that

we have brought this

game into it for everyone to play, so we definitely hope that none of

you are going to

miss out on this chance, but instead play it. Why is the game unique?

Well, unlike most

car games, this one is more of a strategy game, where you direct the

traffic however

you want in an interactive way. If you are curious how that

is done, you only need to

read this description to the end! You are going to guide cars

through busy places of

the city, as well as intersections, and you have to do it not

only without accidents,

but also in a time as fast as possible. To do so, you are going

to click on the traffic

lights to turn them on and off, and do it so that it is going

to be to your advantage.

You will have multiple levels, each one with a new and interesting

challenge. If you

focus you will do great, but also have lots of fun, just like usually

with our

games!

How to play?

Use the mouse.
