A +1.5 spread is commonly seen in baseball betting, the standard line for MLB. This spread means the underdog must win outright or lose by exactly one run to cover the spread. Alternatively, a -1.5 spread means that the favorite must win by at least two runs. Many baseball games are decided by fewer than more than two total goals scored in the game. So, if you were to place a bet on the "Over 2" outcome, you would win if there are three or more goal scored in the game, and lose if there are two or fewer. So, these total Goals Scored in the game.
