<p>Game Rules</p>

<p></p>

<p>This game is an online version of European roulette where the object of the game is to successfully predict &#128176; which of the 37 numbered pockets the ball will land in. By correctly predicting the winning pocket, players win

an &#128176; amount according to the payout for the winning bet.</p>

<p></p>

<p>Players make one type of bet, or any combination of bets, including &#128176; both regular table bets and special betting patterns, restricted only by

the table and bet type limits. Once players have &#128176; placed their bets a

nd pressed SPIN, the roulette wheel starts to spin. The ball rolls in the opposi

te direction of &#128176; the wheel rotation and circles around the wheel edges

and bounces off the wheel diamonds. The ball lands in a &#128176; randomly sel

ected pocket.</p>

<p></p>

<p>A dolly is placed on the bet area of the table showing the winning numb

er, and the winning &#128176; number is presented on the billboard.</p>

<p></p>

<p>All bets that do not match the winning number are removed from the tabl

e.</p>

<p></p>

<p>If the &#128176; player has bet on the winning number the game pays th

e win to the player according to the payout for &#128176; the winning bet.</
