The enjoyment that some people get from fear is likely not with fear itself. Thrills come from the physical and emotional release that follows scary situations. (According to Seeker), a division of Discovery! For a scary horror fan, the feeling is a manifestation of an adrenaline-seeking personality... adrenaline and an opportunity to learn about dealing with scary situations on the safe side. Researchers say. Clasen and his colleagues identified three broad types of horror fans: Adrenaline junkies; white knucklers and dark copers! Why we like scary.
