Hello guys! Immediately I want to apologize for my English, because I use a google translator. My name is Artem, I'm from Ukraine. And I play

I am for the first time, but is known on another Internet resource GipsyTeam Okay, enough about me. Why am I here? I came here to share with you a free, which I created. The pack includes (regular and with a cutout for the pokermaster) Tj T* BT /

cutout HUD looks like at the Pokermaster table: Cut out the window for the action, so that it can be seen, the opponent folded or still in the hand: HUD without a cut is almost the same, just 2 stats are added instead of a cut. In the pack there will be two HUDs, you just need to select one of them in the settings. In the HUD added general stats (NOT positional), such as total cbet flop / turn / river or total 3bet, or total limp etc. Because many rooms have banned the use of positional and dynamic HUDs, so the

is a reliable sample, and if you have a sufficient sample, the pop-ups will help you. are available in the pack (separately for 6max and 9max): Postflop stats: Pop-ups are made in soothing colors with minimal colors. All stats are divided into 3 groups of color according to the type of traffic light: -Red - danger (raises, 3bets, etc.) -Yellow - attention () Tj T* BT /F1 12

you can act (fold) If there was no subscription, you can buy any subscription EDGE subscription or a subscription for a Pokermaster with promo code, which gives a 10% discount. My contacts: Skype: artembudanov GipsyTeam: Email: nepkinpoker@gmail.com Good luck to all!
