

deutsches roulette

The 0 (single zero) and the 00 (double Zero), are the green-slot, on the roulette wheel.

These pockets could receive a 35:1 payout if you hit straight up. If you bet on a single number, you could win 35 times your bet. The last type of bet is somewhat risky, but it pays 17:1.

Be careful! Betting Guide: Roulette Payouts | WynnBET Casino & Sportsbook

What are the odds of hitting a green? In roulette, there are 37 numbers (0-36) and 2 green numbers (0 and 00). The odds of hitting either green number are 2 in 38, or 1 in 19. In the European format, the house edge is just 2.70% since there is only one green pocket on the wheel!
