hacker bet nacional

<p>Tip 2</p> <p>3-Bet Wider from Late Position</p> <p>Once you have some weight on the felt, you can</p> <p> throw it around a little 🌜 by 3-betting more frequently, but pay attention to</p> <p> position.</p> <p>When you have the advantage of position and a deep stack, you 🌜 want to 3-bet a<:/p>: <p&qt; very wide range of hands. Even if your opponent is holding AK or QQ, t hey will 🌜 not be</p> <p> overly enthusiastic about stacking up against you when they are also d eep. If you 3-bet</p> <p> a wide range 🌜 of prospective hands in position, even when ou r opponent does call, you</p> <p> will find yourself in very good shape.</p> <p>Against weaker 🌜 players you can widen your range</p> <p> of 3-bet hands considerably. Any suited court cards will make a fine 3 -bet, in<:/p&qt: <p> 🌜 position, keeping in mind the table composition and the dep th of your stack. You might</p> <p&qt; even start including mid suited 🌜 connectors and suited aces if you feel confident.</p> <p>Out</p> <p> of position, more caution is needed. Generally, you want to 3-bet bluf f 🌜 less frequently</p> <p> when your opponents are adapting to the deeper stack sizes. The deeper the stacks, the</p> <p&qt; narrower your all-in 🌜 range gets and that makes you more v ulnerable to 4-bet</p> <p> bluffs.</p> <p&qt;In addition, you are also going to see your 🌜 opponents flatt ing ranges widen</p> <p> significantly, and hence your fold equity reduced.</p> <p&qt;However, the above assumes your</p&qt; <p> opponents will adapt correctly. If 🌜 they don t, then carry o n as normal and replace any</p> <p> KTo hands with their prospective 78s equivalents.</p>
