<p>Rules applicable to all Poker Games</p>
<p>Poker Equipment</p>
<p>Originally Poker was played with a</p>
<p> standard 36 card Piquet deck of playing cards. 👍 Most games t

hese days are played with a</p>
<p> standard 52 card deck. The Ace ranks high except that it can 👍

  also be used low in a</p>
<p> "straight" or run of cards i.e. Ace, 2, 3, 4, 5. Some kind o

f 👍 tokens to bet with are</p>
<p> required and conventionally these are round chips - sets of Poker chip

s are easily</p>
<p> obtainable 👍 these days and vary from very cheap to extremely

 high quality sets of great</p>
<p> value. A dealer chip called a 👍 "blind" is also usu

ally used to indicate the current</p>
<p> dealer (or at Casino tables, to indicate who plays first).</p>
<p>Poker Objective</p>
<p>Poker 👍 is</p>
<p> totally a gambling game and unlike some other gambling games cannot re

ally be played</p>
<p> without stakes. The stakes do 👍 not need to be money - peanut

s, sweets or matchsticks</p>
<p> will work fine, although seasoned gamblers will sneer at anything &#12

8077; other than serious</p>
<p> stakes. The aim for a hand is to win by having the highest ranked hand

 of cards 👍 or else</p>
<p> by continuing to bet that your hand is the highest until all the other

 players drop</p>
<p> out. The 👍 player who is left when all the others have droppe

d out or the player who has</p>
<p> the highest ranked hand 👍 when the hands are shown wins the &

quot;pot" - all the money that</p>
<p> has been bet during that hand. In 👍 the event of a draw, the

pot is divided equally</p>
<p> amongst players.</p>
<p>Poker Scoring Hands</p>
<p>There are nine ranking Poker hands. We 👍 list them</p>
<p> below in ascending order: One Pair - 2 cards of the same value The han

d with the higher</p>
<p> 👍 value pair wins. If they are the same, then the highest val

ue card in the remaining 3</p>
<p> cards determines who 👍 wins. If they are also the same, the h

ighest value card in the</p>
<p> remaining 2 cards determines who wins and 👍 so on.</p>
<p>Two Pairs - 2 different value pairs</p>
<p> The hand with the highest value pair wins. If they are the 👍

same, then the value of the</p>
