<p>Most Commonly Asked Poker Questions</p>

<p>Not sure what beats a full house or what a straight</p>

<p>can beat? Here are the &#127881; answers to the most commonly-asked p

oker questions this side of</p>

<p>the Strip, so you can know more about these winning &#127881; poker h

ands.</p>

<p>Does a flush beat a</p>

<p>full house?</p>

<p>No. A full house beats a flush in the standard poker hand rankings. &#1

27881; The</p>

<p>odds against making a full house in a game of Texas Hold em are about

36-to-1, while</p>

<p>the odds against &#127881; making a flush are 32-to-1. The full house

is a more rare hand and</p>

<p>beats a flush.</p>

<p>Does a flush beat &#127881; a straight?</p>

<p>Yes. Using the standard poker hand</p>

<p>rankings, a flush beats a straight, regardless of the strength of the

straight. &#127881; The</p>

<p>odds against making a straight in Texas Hold em are about 21-to-1, mak

ing it a more</p>

<p>common hand than a &#127881; flush (32-to-1 odds against).</p>

<p>Does a straight beat a full house?</p>

<p>No.</p>

<p>The odds against making a full house in Texas Hold em &#127881; are a

bout 36-to-1, while the odds</p>

<p>against making a straight are about 21-to-1. Both are strong five-card

hands, but a</p>

<p>&#127881; full house occurs less often than a straight. A full house

beats a straight in the</p>

<p>poker hand rankings.</p>

<p>Does three &#127881; of a kind beat two pair?</p>

<p>Yes. Both three of a kind and</p>

<p>two pair can make a lot of money &#127881; in poker, but three of a k

ind is the best hand when it</p>

<p>goes head to head with two pair. &#127881; The odds against making th

ree of a kind in Texas</p>

<p>Hold em is about 20-to-1, while the odds against making two &#127881;

pair is about 3-to-1.</p>

<p>Does</p>

<p>three of a kind beat a straight?</p>

<p>No. The odds of making both of these hands are &#127881; very</p>

<p>close in a game of Texas Hold em. The odds against making a straight a

re 20.6-to-1,</p>

<p>while the odds against &#127881; making three of a kind are 19.7-to-1

. The straight comes about</p>

<p>slightly less often, making it the winner against three &#127881; of
