In poker, a PKO ( Progressive Knockout ) tournament is a type of tournament where a portion of the buy-in goes toward a bounty on each player's head. In PKA, when a player eliminates another player, they typically receive a cash prize for half of the eliminated player's buy-in. The bounty increases with each elimination. As a result, the tournament progresses, the bounty on your head increases, making it more and more lucrative for other players to try to knock you out.
