The reign of the Micro Knights!  
As the sun rises above the distant towers of Chatoux  
Prix, dragon king Chalcedony orders all knights to take charge outside the kingdom walls. According to the king, in order to keep the kingdom safe, all potential threats, big or small, must be eliminated. The task falls on the three vallant knights Sir Smash, Sir Charge, and Sir Count. The excitement rises as our heroes exit the castle gate and embark on their quest to restore order in the kingdom.  
Micro Knights is an action-packed slot in the ELK Friends Series. This intense game offers a lot for the player to discover. Symbols drop down onto the 7x7 symbol grid, where clusters of 5-or-more symbols generate a win. Providing an additional dimension to the game is the symbol queue. It collects a reserve of symbols ready to be matched with symbols on the grid to form new winning clusters. It is also able to boost existing clusters, generating even higher wins!  
Every symbol drop is exciting and all wins, big or small, contribute and increase the chance to trigger one flag feat  
ure after another.  
Time to bring order to the kingdom!
