

# sport bete

An Each Way (EW, A/ W) bet is essentially two separate bets: one for the horse to win and one for the horse to place. The other For The Horse is placed on any of the positions offered in that race. This means you can receive a Return On Your Bet - Betfair Sportsbook app.

If the pick wins, your bet wins both ways. If it places, you lose on one way (be), but you win on the other. Complete Guide to Each Way Betting - Techopedia techmedia : gambling guides: what is an each way bet? - Techopedia techmedia
