

# suprema poker

The so-called hyper turbo tournaments have a blind level, going by every two or three minutes. - with only a handful of cards, the hand is played on each deal. As a result, the blinds go up so fast, players become short/stacked very quickly. Turbo blind structure, designed to increase the number of hands per hour.

How to play them? | Blogpokecode : blog ; dahiber\_turbos+tournamentam  
Uma típica estrutura de aumento de blinds em 10-20 minutos.  
standard online passively increasing the blinds every 10-20 minutes.  
factors including the tournament's buy-in. Turbo blind structure, designed to increase the number of hands per hour.
