If a player's first two cards are an Ace and the Card with a value of 10 (Such as 10, Jack, Queen, King) then the hand is called a "Blackjack" or "21".

Blackjack is the highest hand in the game. So in the context of the game, a Blackjack does beat any other hand with a value of 21 or less. If a player is dealt a hand with a value of 21, they automatically win and the Dealer will pay them even money. If a player is dealt a hand with a value of 21 and the Dealer also has a hand with a value of 21, it is a push.
